Celso de Lemos

P O R T U G U E S E E X C E L L E N C E

In a location up high in the granitic hills, between beaches and vineyards,
lies the city of Viseu: the home of Celso de Lemos.
The bed linens are woven by talented artisans in the green heart of Portugal.
Featuring the best natural materials, the most meticulous craftsmanship,
lush colour shades and subtle style.

The collection is inspired by the beauty of the nature which surrounds us.
We express our respect for nature by producing according to the rules of
art and those of the Oeko-Tex label.

Made in Portugal, our homeland, where knowledge from the past meets with
modernism; we search the boundaries of possibilities, as an endless quest to
perfection. With an experience of 40 years in textiles, this innovative collection
is a result of the imagination and dedication of a devoted team.

CARE INSTRUCTIONS

Machine Washing

- Sort your household linen by fibre (cotton, linen, silk, wool), colour (whites, light colours) and type of item (sheets, towels, tablecloths)
- Do not include garments with components that could damage fabrics (zippers, hooks, metal parts)
- Make sure the items are unfolded when loading the machine
- Begin preferably with a pre-soak in cold water and a little detergent

Temperature

- Bed linens - wash in warm water
maximum 60°C with mild, liquid biodegradable detergente
- Delicate fabrics - cold water 85 F / 30°C, cold final rinse, pre-soaking

- Use maximum temperatures only on the hardest-to-clean articles:
- Whites 120/140 F - 50/60°C
- Colours 85/105 F - 30/40°C

- Delicate items with lace and embroidery should be enclosed in a large, thin mesh bag

Detergent

Use a mild liquid biodegradable detergent without added bleach or whiteners.
Avoid powdered detergent or detergents containing alkalis and make sure the detergent is fully dissolved before the water touches the fabric.

Drying

- When machine drying, never use high temperatures
- Do not place coloured articles in direct sunlight
- Do not dry longer than necessary

Ironing

- Use a steam iron on a warm/hot setting for cotton
- Use a hot setting for linen and a water spritzer if needed
- For embroidered linens, iron them on the reverse side and while damp for best results

Dry Cleaning

- Luxury fibres, such as silk, wool and cashmere, are best professionally cleaned to avoid excessive shrinkage

Storing

- Store linens folded flat in a cool, dry, well-ventilated área;
- Linens stored long-term should avoid being stored in plastic bags and boxes as natural fibres need to breathe;
- Make sure stored linens are not exposed to direct sunlight which can cause permanent yellowing
